The difference between Phil and I?

I make products for children with autism  
(and adults) while Phil can't keep his  
dick in his pants around them.

Big difference.

I fight big pharma and I help kids return  
to a normal state of mind after they've  
had an overload of heavy metals from  
vaccines.

The reviews on the site are genuine, not  
bought for. The business has grown  
because it works.

Let's recap: I build businesses fighting  
for the children, Phil goes to jail for  
having sex with one.

it's not rocket science.
